Damsels in Redress: Women in Contemporary Fairy-Tale Reimaginings

7th-8th April 2017

Peter Froggatt Centre, Room 02/018, Queen's University Belfast

Wi-fi Access for Visitors to Queen's

Delegates from educational institutions that are part of Eduroam should be able to connect securely to the Internet using the same username and password as they use at their home institution. Eduroam is available throughout the campus. **Please note:** Visitors must configure and test their Eduroam connection at their home institution *before* travelling. Effective support can only be provided by the home institution as authentication is relayed back and authorised by them. If the connection has not been pre-authorised, it is unlikely to be resolvable at the 'visited' location. For further information, please see: http://www.qub.ac.uk/directorates/InformationServices/Services/WiFi/eduroam/eduroamforVisitors/

Visitors to the University who are not from an Eduroam institution should be able to connect via The Cloud at the Peter Froggatt Centre and other specific locations (see http://www.qub.ac.uk/directorates/InformationServices/Services/WiFi/CloudLocations) by following these steps: On your laptop, tablet, or phone, connect to _**The Cloud** network. This displays a web browser where you can register or login (if you have already registered with The Cloud). If a web browser does not appear, open your preferred web browser and navigate to any web page. The Cloud landing page should open as above.
